**PANEL COMMENTS:**

Student to lose marks as he used wrong template not prescribed by Mr. Edgar. SCOPE is not SMART needs to be re-written, Please use proper titles for your supervisor (Dr.Mr. etc), state clearly whether you are developing a mobile app or a website, the objectives are written abit complicatedly, they are correct but rewrite them simply, include the term “WASTE” in your objectives, so that it is clear that it is waste food management, state clearly the s/w you are going to use to code your system Front end and backend, On your document, let the figures be labeled appropriately....e.g. The diagram on Methodology. Also citations, appear in references but not in text.

ALLISTER MUGAISI ATSENGA - SCCJ/01451/2019 - Resubmit  
Project Title - SMART SURVEY - Resubmit

Consider changing your title to a better one reflecting sentiment analysis. Please make sure you have one general objective and four specific objectives.  
Please redo your objectives to make sure they're SMART. Please specify whether your prototype will be a web application or mobile application.  
Please choose one and integrate it with your model performing sentiment analysis.  
Provide a literature review of other sentiment analysis solutions.  
Also do a review on the algorithms used in sentiment analysis then explain the algorithm on which your model will be based. Include project documentation in your schedule and gantt chart. Also look for a client who will provide you with the requirements and who will later test your prototype. Closely work with the client. Also work with your supervisor to help you prepare for the next proposal presentation.

DANIEL MUTIE MWANZIA - SCII/00763/2019--Resubmit..Project Title -Resubmit

Please include your project title. Also take time to format your document properly. Have your general objective as one statement/sentence.  
Provide four smart objectives only. Possibly narrow your scope to cover accidents. Redo your scope. Redo your table of contents and make sure it is autogenerated. Format your work properly as per the guidelines given. Work with your supervisor to help you prepare for your next proposal presentation.

JAMES MAGONDU MWANGI - SCCI/00765/2019-- Did not present due to network connection problems.

FRANCIS NDUNG'U MUGO - SCCI/00776/2019 - Resubmit...Project Title - FINDME-Resubmit

Make sure you have one general objective in form of one statement. Also work on your specific objectives. Make sure they're SMART and narrow them to four.  
As part of your literature review and requirements gathering, Visit a police station to find out how missing persons are reported and how they're looked for.  
This will help you understand the processes and procedures followed when it comes to missing persons. In addition, find out the weaknesses of the current procedures followed and come up with a proposal for a solution/improvement. Work with your supervisor to help you prepare for your next proposal presentation.

- i. Objectives are not smart, please re-write them, and make them simpler to understand, and more directly relatable to your problem statement. Also be more clear in your implementation, it is not clear exactly how you will implement your proposal
- ii. Document not numbered
- iii. Spacing not uniform
- iv. Do not use first person pronouns in your document. Just write “The study will, or the project will, or this chapter intends to...”
- v. Citation not correct- Don’t put citation at the beginning of a sentence but put it at the end of the sentence
- vi. Objectives should be rephrased- Your objectives are not SMART. It doesn’t give a clear implementation method
- vii. The gap is not clear. You have explained that you will create a better system than Madaraka express and China’s high speed Railway. Kindly be specific on the extra features you are adding.

PANEL COMMENTS:

- i. Justify your document
- ii. Your objectives should be systematic. Kindly reorder your objectives. The second objective should have been the first objective.
- iii. Rephrase the 5<sup>th</sup> objective ie “To generate reports on voting history....”
- iv. The introduction part of your literature review should have a heading.
- v. Use citation tools such as Mendeley or zotero

PANEL COMMENTS:

- i. Objectives are not smart, please re-write them, and make them simpler to understand, and more directly relatable to your problem statement. Also be more clear in your implementation, it is not clear exactly how you will implement your proposal.
- ii. The introduction provided is only one sentence. Kindly give more information about your project and your problem area.
- iii. Kindly identify a target customer e.g Pumwani Hospital. The panel was interested to understand how you will get babies to use in testing your model.
- iv. Your document is not formatted according to the template. Spacing 1.5, font type Times New Roman
- v. Justify your document
- vi. A new chapter should start on a new page
- vii. Do not use first person pronouns in your document. Just write "The study will, or the project will, or this chapter intends to..."
- viii. The project schedule should have a Gannt Chart
- ix. Include chapter four
- x. The document should be properly cited and referenced. Use citation tools such as Mendeley and Zotero
- xi. You have reviewed only two similar systems. Kindly do more research on existing systems. At least 3.
